

Dear Customer:

Re: Phyto5000 replaces LifeGems

In line with our mission to provide you with the finest quality of products we have recently updated our product line. We are no longer supplying LifeGems and LifeGems Junior. In replacement we are proud to present Phyto5000

Phyto5000 is a fantastic new anti-oxidant formula! Antioxidant power can be measured in ORAC (Oxygen Radical Absorption Capacity) units. It is generally recommended that you consume at least 3000 to 5000 ORAC units per day (equivalent to 9 or more servings of fruits and vegetables). Most really good anti-oxidant supplements boast a 5000 ORAC value for a large single serving. Our Phyto 5000 gives you a total of **42,000 ORAC units of antioxidant power**. Not only is this a much more effective nutritional supplement It Is also more convenient. The LifeGems formula required up to 9 capsules per day (depending on your weight), Phyto5000 gives you more antioxidant power in just one easy to swallow capsule.

This exceptional formula has highly concentrated extracts of Berries, Green and White Tea, French Maritime Pine Bark, Resveratrol, Bioflavonoids, Ginkgo Biloba and much more.

Taken in conjunction with our **Multi-Vitamin Spray** and **UltraMins Phyto5000** will provide you with the complete daily vitamin and mineral support that your body needs.

The suggested dosage of one capsule per day for the Phyto5000 is suitable for adults and children who are able to swallow capsules. Capsules may alternatively be mixed into food.

We are confident that you will benefit from our new high potency anti-oxidant formula.

Our customer service representatives are available to answer any questions you may have about our new **Phyto5000 or any of our products** you can reach us on: **01444 47 11 47 or email europe@gematria.net.**

To order go online at www.gematria.net or telephone 01444 47 11 47 - Phyto5000: £35 (Inc VAT)

Thank you for your continued business and we appreciate your support as we aim offer the finest quality products to you, our valued customer.

Healthy regards,
The Gematria Team
